GANESH HONAMORE

Data Analyst

+91 9860682235 • honmore13@gmail.com • Pune, Maharashtra • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Data Analyst with hands-on internship experience in SQL, Power BI, Tableau, and Excel, skilled in data cleaning, business analysis, KPI development, and dashboard creation. Analyzed 50,000+ records and built end-to-end BI dashboards to generate actionable business insights. NASSCOM Certified Data Analyst.

TECHNICAL SKILLS

- **SQL (MySQL):** Joins, CTEs, Subqueries, Window Functions, Views, Aggregate Functions, CASE WHEN, GROUP BY, HAVING, Stored Procedures, Query Optimization
- **Advanced Excel:** Pivot Tables, Power Pivot, VLOOKUP, XLOOKUP, INDEX-MATCH, IF, SUMIFS, COUNTIFS, Conditional Formatting, Data Validation, Macros, Charts, Power Query
- **Power BI:** DAX, Data Modeling, Interactive Dashboards, KPI Reporting, Row-Level Security
- **Tableau:** Dashboard Development, Data Visualization, Interactive Dashboards, Calculated Fields
- **Python:** Pandas, NumPy, Data Manipulation Fundamentals
- **Core Competencies:** Business Intelligence, ETL, KPI Development, Data Modeling, Trend Analysis, Report Automation, Stakeholder Reporting, Data Storytelling, Analytical Thinking

WORK EXPERIENCE

Data Analyst Intern – AI Variant, Bangalore **Oct 2025 – Apr 2026**

- Cleaned, transformed, and validated 50,000+ records using SQL, Excel, and Power Query to prepare data for analysis and reporting.
- Performed SQL-based analysis using Joins, CTEs, Window Functions, aggregations, and filtering to identify trends and calculate business KPIs.
- Developed interactive Power BI and Tableau dashboards to monitor KPIs related to HR attrition, revenue, branch performance, and business activities.
- Analyzed HR attrition across 50,000+ employee records, identifying patterns across department, income, promotion history, and work-life balance.
- Analyzed insurance business performance across 49 opportunities and 9 account executives to support performance monitoring and reporting.
- Prepared KPI reports and business insights from cleaned datasets to support data-driven decision-making.

PROJECTS

Olist E-Commerce Analytics Dashboard *SQL, Power BI, DAX, Power Query* *View Project*

- Analyzed a **9-table, 99K-order e-commerce dataset** using 45+ SQL queries with Joins, CTEs, Subqueries, and Window Functions to derive business insights.
- Cleaned and transformed multi-table data using **Power Query**, including datetime conversion and data consistency checks; built an interactive Power BI dashboard with DAX measures and dynamic slicers.
- Found that late deliveries averaged a **2.57 review score vs. 4.29 on-time (40% lower)** and only **3.12% of customers were repeat buyers**, highlighting logistics and customer retention opportunities.

HR Analytics Dashboard (Attrition Analysis) *SQL, Tableau, Power Query* *View Project*

- Built a Tableau dashboard to analyze employee attrition across department, income band, promotion history, and work-life balance.
- Used SQL with CTEs and aggregate functions to calculate attrition rate, headcount, and department-wise breakdowns.
- Used Power Query to clean and standardize HR data and created Tableau calculated fields and KPI cards for stakeholder reporting.

EDUCATION

Bachelor of Technology (B.Tech) in Biotechnology **02/2021 – 03/2025**

Dr. Balasaheb Sawant Konkan Krishi Vidyapeeth, Ratnagiri, Maharashtra • CGPA: 6.76/10

Data Analyst Certification Program – ExcelR Solutions **07/2025 – 01/2026 (Completed)**

Pune, Maharashtra

CERTIFICATIONS

- **NASSCOM Certified Data Analyst** (2026) *View Certificate*
- **Certificate of Excellence – Data Analyst Programme, ExcelR Solutions** (Jan 2026) *View Certificate*
- **Data Analyst Internship Completion Certificate – AI Variant** (2026) *View Certificate*
- **HackerRank SQL Badge – 4 Star**
